Therefore, without wasting any time, dive into the article. What is Truecaller Truecaller is a smartphone application that helps to identify the caller ID of unknown incoming calls and messages. The only app that tells who is calling anonymously on your phone. True Software Scandinavia AB developed it in 2009. It has initially been launched by BlackBerry on July 1, 2009, after seeing a great user response, it was later launched on Android and Apple. TrueCaller is the best choice for your stock dialer, in which you can manage calls, chats and SMS- all in one place. Yes, there is no need to receive SMS and separate message application. With 250 million active users, it becomes the world's best caller ID and blocking application with a community-based spam list updated by millions of users. With daily updates and integration of new features, you can now use truecaller to send money, recharge your phone and pay bills using UPI. What's TrueCaller Premium Apt TrueCaller Premium APK is a modified (cracked) version of the official TrueCaller application where you get all the premium features like who viewed my profile, no ads, unlimited call recordings, and many more for free. All the premium and gold features active in this TrueCaller Pro APK mean you have to download APK, and you're ready to protect against unwanted calls and spammy messages. With truecaller premium, you can: Get free premium features Image Incoming Caller ID Automatic Block Spam Call Joy who looked at my profile feature, make your inbox spam free Unlist yourself from TrueCaller, mark annoying people as spam, check who's calling your number, and make video calls. You will get access to the world's largest telephone directory from which you can find any number with its owner's name. Also you last seen option You can check who's online at TrueCaller using. What truecaller's premium gold subscription if you want your profile to be stacked out of all Users, then Truecaller Gold membership is just for you. In which, whenever you call, your name will appear in the shiny gold 'Caller ID' interface. Unlike premium subscriptions, gold membership has a one-time payment where you have to pay ₹5,000/year, and you can make yourself stand out from the crowd. The Gold membership has all the premium features and some additional features like gold 'detail view', high priority in customer support and many more. One feature I like about gold membership is the premium gold badge next to our profile picture. This makes our profile cool and gives a professional look. Truecaller Premium apk features As I mentioned earlier, truecaller premium apk unlock all features. Below, I'm highlighting some unique features about this mod. If your favorite feature isn't listed here, just comment below, and I'll add it to my list. Who saw My Profile TrueCaller offers this impressive feature where you can learn who searches you on TrueCaller. There are two ways to find people, i.e. by their name and number. The best part is that your personal details such as email, address and personal number are not visible to the user. Also, they can only send you a request if they also had a TrueCaller premium. Whenever someone searches for your name or number on TrueCaller, you'll receive a notification saying 'someone has viewed your profile.' You'll be able to see someone's profile by opening a notification. Incognito mode This feature is useful when you want to see any non-premium user's profile without being alerted. This means that TrueCaller Premium APK users will have more benefits over non-premium users. You can always control what information you want to be public using the 'Privacy Center' option in the settings. Ad-free advertising is the main reason I always use the paid version of any application. It's frustrating to have ads pop-up during some important work. In premium TrueCaller App, you never have to face any such issues. Unlike the free version of the application where you get a lot of banner ads, you can enjoy the ad-free experience in Premium. Premium badges If you are the person who wants to stand out in the crowd, this feature is just for you. This is a premium feature, but you are getting it free in truecaller mod app. You'll get a premium batch on your caller ID that gives you a professional look whenever you call. You can use this feature to impress your friends by showing a professional caller ID view. More contact requests as we know, whenever we search for someone by their name, we have to request them to get complete information such as private numbers, emails and addresses. Indeed, it is important to protect user data from hackers and spammers. You get a limited amount of contact requests, or you can earn something for free from your profile option. But cracked truecaller Using APK, you get unlimited contact request feature for free. Spam Spam This is the most important feature of premium TrueCaller app, where you'll get rid of unknown spam calls and spam SMS. Truecaller automatically identifies every unknown message you receive on your Android. In addition, it automatically blocks spam calls and SMS from telemarketers. It's the only one in a dialer that you need to protect your Android device from unwanted calls and lets you connect only with important ones. Below are some more features you'll love. Name or number series Identify unknown caller ID block from automatic records Important Call Joy UPI payment and recharge Page Enterprise-grade data protection how to install and use TrueCaller Premium Mod APK Downloading TrueCaller Mod APK from Thinkers is a direct forward task. Anyone who has some technical knowledge can download it. If you are new to thinkers and downloading applications for the first time, you should read our guide. I am writing this guide from a novice perspective so that everyone can easily understand it. Step1: First, click on the 'Go to Download Page' button above. After that, you'll redirect to the Truecaller Premium download page. Step2: Now, click on the 'Start Download' button, and you are ready to download an application. If you're redirecting to another page, try opening our website on the Google Chrome browser. Step3: Then, go to File Manager and open your downloaded file. It may show you some warnings. Just click on 'Settings' and then turn on the 'Allow from this source' option. Then click back and open the APK file again. This time it will be installed directly. If you don't see this any error, don't worry, just install the application, and you're ready to enjoy the free TrueCaller Premium. Note: If there is a pre-installed version of TrueCaller on your Android, uninstall it to use Mod TrueCaller. Otherwise, it will show the 'Installation Fail' error. People Ask Below Also (FAQ), I'm answering some questions that many users asked me related to the truecaller premium application. If you think I haven't raised your question, you can comment below. I would love to solve your query. Is TrueCaller Hack safe to use app? Yes, it's 100% safe to use any application you've downloaded from Thinkers. I personally check each and every modded application for any bugs and viruses, and after passing all my checks, I upload it to my server. How does TrueCaller work? Truecaller works on the crowdsourcing principle. where data is collected from millions of its users and analyzed to obtain accurate information from a person. If you don't have any technical knowledge, it sounds like magic that you can find the name of anyone who isn't registered with your phonebook. But for a geeky guy, it's normal. Whenever you install TrueCaller Premium App if so, it automatically syncs your phonebook contacts to your server. This means that all your contacts are stored Database. It has 250 million active users whose contacts are synced with truecaller servers. So whenever an unknown person calls you, it's more likely that a person's number can be saved in any of these 250 million people's contact lists. And that's how you get the caller ID of unknown people. How can I remove my number from the TrueCaller server? Below is the step-by-step guide to removing numbers. Step 1: Go to the TrueCaller Absoluteist page by clicking here. Step 2: Enter your mobile number with country code. Step 3: Click on 'Realistic Phone Number'. Without 24 hours, your number will be deleted from the TrueCaller database. So by wrapping up friends, enjoy all Truecaller Premium features for free with this Truecaller Premium apk v1.35.5. Don't forget to share this cracked version of TrueCaller Premium Mod App with your friends so they can also use it.
